

A.M. and P.M.**Family Note**

Today we discussed the meanings of A.M. and P.M. Your child learned that A.M. describes times from 12:00 midnight to 12:00 noon and that P.M. describes times from 12:00 noon to 12:00 midnight. We identified events that occur throughout the day and labeled them on a 24-hour timeline.

Talk with your child about events that take place during your family's day, such as eating dinner, doing homework, reading, getting ready for bed, sleeping, and waking up.

Please return this Home Link to school tomorrow.

- ① Draw pictures of things that happen at home.

Write the time for each using A.M. and P.M.

Time: _____	Time: _____
Time: _____	Time: _____

Practice

② $6 + 3 = \underline{\quad}$

③ $5 + \underline{\quad} = 12$

④ $\underline{\quad} + 8 = 10$

⑤ $\underline{\quad} = 5 + 4$
