

Measuring in Inches

Home Link 4-9

NAME _____

DATE _____

Family Note

In today's lesson your child learned to measure objects in inches with a 12-inch (foot-long) ruler. We also discussed the important concept that an inch ruler is composed of a series of inch-long spaces. We measured short objects first with inch-long blocks and then with 12-inch rulers to show that the measurements are the same.

Please return this Home Link to school tomorrow.

- ① Cut out the 6-inch ruler below. Measure four short objects or distances to the nearest inch. Record your measures below.

Object or Distance	Length to the Nearest Inch
	About _____ inches
	About _____ inches
	About _____ inches
	About _____ inches

Practice

Solve the facts.

② $6 + 8 = \underline{\quad}$

③ $9 + \underline{\quad} = 15$

④ $7 + 6 = \underline{\quad}$

⑤ $\underline{\quad} = 8 + 5$
