

3-Dimensional Shapes

Family Note

In this lesson children described and compared different 3-dimensional shapes. The class also created a Shapes Museum using the objects children brought to school. Read the list of shapes below with your child. Together, find examples of the shapes.

Please return this Home Link to school tomorrow.

Work with someone to make a list of things that have these shapes.

① Cube

② Rectangular prism

③ Cylinder

Practice

Add.

$$\begin{array}{r} \textcircled{4} \quad 21 \\ + 24 \\ \hline \end{array}$$

$$\textcircled{5} \quad 36 + 14 = \underline{\quad}$$

$$\begin{array}{r} \textcircled{6} \quad 38 \\ + 56 \\ \hline \end{array}$$
