

# Place Value

## Family Note

In this lesson your child reviewed place value and how it is used to determine the value of digits in numbers. For example, the 5 in 503 is worth 5 hundreds, or 500, because it is in the hundreds place. The 5 in 258 is worth 5 tens, or 50, because it is in the tens place.

Your child also used place value to compare numbers. For example, to compare 571 and 528, your child might think, "Both numbers have 5 hundreds. But 571 has 7 tens and 528 has only 2 tens. So 571 is the larger number."

**Please return this Home Link to school tomorrow.**

In Problems 1–2, write the numbers shown by the base-10 blocks.

\_\_\_\_\_

\_\_\_\_\_

③ Read the numbers in Problems 1–2 aloud to someone at home.

④ Write each number in expanded form. Then write  $<$  or  $>$  in the box to compare the two numbers.

$$491 = \underline{\hspace{2cm}}$$

$$491 \square 471$$

$$471 = \underline{\hspace{2cm}}$$

Write  $<$ ,  $>$ , or  $=$ .

⑤  $295 \square 298$

⑥  $387 \square 378$

## Practice

Add or subtract.

⑦  $93 + 65 = \underline{\hspace{2cm}}$

⑧  $80 - 54 = \underline{\hspace{2cm}}$

⑨  $76 + 26 = \underline{\hspace{2cm}}$

Unit
